

Electronic Visit Verification (EVV) Communication

AHCCCS has made a decision to bring EVV in-house and build an EVV aggregator. This means that AHCCCS will not be re-soliciting for an EVV vendor after their contract expires with Sandata as of October 1, 2025.

For providers who **do not** use Sandata as an EVV vendor, they **will not** have to make any changes. Your EVV vendor will send data to AHCCCS instead of sending it to Sandata.

For providers **who use** Sandata as their EVV vendor, you **will need** to contract directly with Sandata or another EVV vendor of your choice.

Additional Details are available here: [State of Arizona Mail - EVV Reminders](#)
