

Last Chance to Participate in Workforce Development Programs for Eligible HCBS Providers

AHCCCS and the Association for Talent Development (ATD) are providing **two** expert-led professional development courses to eligible providers of Home and Community-Based Services (HCBS). ***Please note these are the last courses being offered and seats are filling quickly.***

ATD Integrated Talent Management Certificate Program is designed for ***workforce development professionals, HR professionals, or leaders actively involved in workforce development activities*** to help create and implement effective workforce development strategies that will lead to high-quality service delivery.

ATD Training and Facilitation Certificate Program is one of ATD's most popular train-the-trainer offerings, and helps ***new and seasoned trainers*** become learner-centric facilitators who apply the skills of an engaging and effective trainer.

AHCCCS is asking for your assistance in making sure that as many provider organizations as possible are able to participate in these unique training and education opportunities. *Please share these opportunities with your professional networks.*

Registration is now open for July 2024. Interested providers should use this link to register for the Integrated Talent Management Program.

AHCCCS is paying for the cost of these programs on your behalf. This is our final AHCCCS ATD Integrated Talent Management program. If this date does not work for your schedule, we have limited seats available in a publicly offered ATD Integrated Talent Management course. To learn more or to enroll, please contact the ATD customer care team.

Please distribute this email to your lists of associations and eligible providers to encourage participation. There is no limit on the number of attendees per organization. **Eligible providers include the following provider types:**

- Home Health Agency PT 23
- Adult Day Health PT 27
- Assisted Living Home (formerly ACH) PT 36
