Information For Medicaid Providers: Upcoming Changes to STAR+PLUS

Effective September 1, HHSC is transitioning contracts for the STAR+PLUS program. This transition means:

- Members may need to select new health plans.
- Providers may need to contract with new MCOs.

The STAR+PLUS Project Team invites providers to attend an upcoming webinar to learn about changes to the STAR+PLUS program. This information will be helpful to providers in communicating with STAR+PLUS members and engaging with managed care organizations.

Each webinar will cover the same information, so providers only need to attend one session. Registration is required.
